

MouseMatics: Learning Math the Fun Way (Volume 4)

By Kats, Jane

CreateSpace Independent Publishing Platform, 2014. Book Condition: New. Brand New, Unread Copy in Perfect Condition. A+ Customer Service! Summary: Mousematics - Learning Math the Fun Way is a series of workbooks for children aged 4 to 7. This is the first workbook in this series. What makes it so unique? First of all, these workbooks have a slightly different purpose than other mathbooks for preschoolers. The main purpose of the Mousematics series is not to teach preschoolers to count (this is something every child will inevitably learn sooner or later), but to spark the children's interest, to invite them along on an exciting journey into the world of logics and mathematics. This is why the tasks in these books are made to be interesting, above all. Four years is the age when many children begin to arduously count everything around them and look for familiar letters and numbers; and this book is intended to support this interest. Children will enjoy counting bunnies behind fences and helping a mouse avoid being eaten by a cat; and bringing a truckload of goods from the warehouse. Secondly, we tried to make sure the tasks are created in a way that children do not form stereotypes that...
