Yes Dee Publishing Pvt Ltd, Chennai, 2014. Soft cover. Book Condition: New. 200pp. This book will help professionals and students to plan & design a Warehouse based on the product portfolio. Users will be able to select the proper storage and retrieval system which includes racking system, MHEs, warehouse management software, etc. They can calculate and decide the number of material handling facilities required. Warehouse Engineers can optimise the storage and retrieval systems using maximum utilisation of building and storage methods. The book also gives a clear understanding of the type of products and the methods of classification. Part feeding methods discuss the various types and helps in determining the best method. Kitting of parts and feeding to assembly lines are also discussed. A case study has been provided for clear understanding. Safety consideration during selection of material handling systems and storage and retrieval systems has been covered. The procedures to be followed during the design and selection of the warehouse planning systems and equipments are also discussed in detail. The vaasthu requirement for industries and offices has been collated for easy reference.
