

## Thermodynamics and Chemistry (Classic Reprint)

Filesize: 7.51 MB

### ***Reviews***

*Completely essential go through book. It really is simplistic but excitement inside the 50 % of the pdf. I am very easily will get a satisfaction of studying a composed book.*  
*(Damian Poulos)*

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from Thermodynamics and Chemistry No one can write on thermodynamics without being deeply influenced by Willard Gibbs and Max Planck. The writings of the former will always be the admiration (and sometimes the despair) of the student of thermodynamics on account of the extreme rigor and completeness with which he discusses the subject, while Planck in his Lectures on Thermodynamics has given a treatment which is a model of conciseness, accuracy and logic. It has been my endeavor to write a book which, in addition to being accurate, logical and sufficiently rigorous, will furnish the student with numerous examples of the application of the principles of the science. It is with this object in view that four chapters have been devoted to the phase rule and its applications. According to the point of view adopted in the following pages, thermodynamics is an empirical science, i.e., it is based on generalizations from experience which find their expression in the First and Second Laws. Hypothetical views as to the constitution of matter or the nature of heat are not used in the development of thermodynamic principles and hence these principles are as certain as the experimental facts on which they are based. It is of course possible to develop the subject on the basis of the kinetic theory, assuming heat to be the kinetic energy of molecules. This method has many advantages and may lead to a more intimate knowledge of nature than is gained when we refrain from such hypothetical aids. On the other hand, by developing thermodynamics empirically, we can be sure that all our results will be expressed in terms of quantities such as temperature,...
