Excerpt: . . . into an infinite variety of forms; and from these forms, botanists have given them their names, which are almost as various. What proportion do we discover between the stalks and the leaves of flowers, or between the leaves and the pistils How does the slender stalk of the rose agree with the bulky head under which it bends but the rose is a beautiful flower; and can we undertake to say that it does not owe a great deal of its beauty even to that disproportion the rose is a large flower, yet it grows, upon a small shrub; the flower of the apple is very small, and grows upon a large tree; yet the rose and the apple blossom are both beautiful, and the plants that bear them are most engagingly attired, notwithstanding this disproportion. What by general consent is allowed to be a...
