

The Prussian calculator by which all business calculations are performed by one rule with an appendix

Filesize: 2.89 MB

Reviews

This publication will be worth purchasing. It really is written in simple terms instead of difficult to understand. It's been designed in an exceptionally simple way and is particularly only right after I finished reading this ebook in which basically modified me, alter the way I believe.

(Prof. Loyce Runolfsson Jr.)

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 34 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1846 Excerpt: . . . of many other systems of Division; and those too, with little or no regularity. For illustration, we may take the different weights, measures, coins, and c. If these were all reduced to the decimal system, the science of Arithmetic would be very easily learned, as will be seen from the readiness with which calculations are made in federal money. In business we have frequent occasion to use Addition, and as the accuracy of almost every problem depends more or less for correctness on the accuracy of our additions, great care should be taken to have them correct. In Addition, some perform the operation by adding upwards and then downwards. Thus. 164 Commencing at the right, first adding the several numbers, commencing with the 3; say 3 and 7 are 10 and 2 are 12, 12 and 8 are 20, 20 and 6 are 26, 26 and 4 are 30. Set down the 0 and carry;---the 3; then add the next column as before; and thus proceed through, setting down the result. Then commence at the top, at the right, and add downwards as before, setting down the result. --If the two answers agree, it is presumed that the work is right; as it would hardly ever occur that we would make the same error in adding both ways. Some accountants also practice adding the columns separately, and then adding the result, as in the example. They would find the amount in the first...
